

# ETSU vs. Mercer Postgame Comments

## Oct. 17, 2015 (Macon, Ga.)

### **HEAD COACH CARL TORBUSH**

#### **On today's game**

*I think Mercer has a really good football team and they could easily be undefeated. We haven't played as well these last two games as we did in the first four. I think the biggest disappointment today was we weren't able to convert defensively on third and fourth downs, which would have gotten us off the field and created some excitement on the sideline. There is still a lot of work to be done and have to get better on both sides of the ball.*

#### **On committing penalties**

*We had a couple of penalties that we haven't been committing. It's disappointing. The hit out-of-bounds and having 10 guys on the field – those are some silly penalties that we shouldn't be making at this point in the season. Our players understand that. It's just a matter of concentration and having total focus in the game.*

#### **On changing some features in the offense**

*I thought Nick Sexton did some good things when he was in there today. Demetrius (Anthony) gave us a spark in the wildcat and I think he can do more as he gets better in those situations.*

---

### **WIDE RECEIVER DEMETRIUS ANTHONY**

#### **On getting to the two-yard line and not scoring**

*Things come and go. It's the game of football and when things like that happen, we just have to step up as a football team. We didn't execute this time, but hopefully we learn from that and finish the next time we are in the red zone.*

#### **On five his overall play today**

*It just happened the ball came my way. When I got the ball in my hands I was ready to make a play and help the team move the football.*

---

### **LINEBACKER DYLAN WEIGEL**

**On today's game vs. Mercer**

*I try to be a leader on defense and step up to make plays. I love the game of football. Even though we came up short handed, I have to keep my head high and focus on getting better.*

**On balanced offensive attack of Mercer**

*They are a great run team with strong guys up front. They beat us on a couple of blitzes on the passes. We had a lot of third downs when we needed to get off the field, but couldn't make the big play. With the run it was a lot of alignment and assignment. If a guy has to cover the quarterback, he has got to get quarterback. That was a big problem tonight.*

**On team improving**

We have to come out every week ready to play, perform and give it our all. Nobody is going to feel bad for us. We have another tough game next week, but we have to keep plugging away and make progress as team
